

The mymobility application allows you to have the information you need to prepare for and recover from surgery in the palm of your hand. You will have access to:

- Information and education when you need it
- To-do lists with reminder notifications
- Data about your activity levels and progress with your care plan
- Information is also supplied to your surgeon and care team to help them determine your need for extra direction or follow-up care. It can also be used after surgery to aid in your recovery

Preparing for and recovering from surgery can seem overwhelming. Knowing what to expect and receiving timely reminders can help ease the process as you approach your surgery date. mymobility keeps you connected to your surgeon and care team throughout this process to assist you in many ways, including:

- Understanding your condition and optimizing your health prior to surgery
- Learning what to expect the day of surgery
- Knowing steps you can take to help minimize complications after surgery
- Offering guidance as you work toward regaining mobility
